

LÊ TIẾN DŨNG

WEBSITE DEVELOPER

An Lạc, TP.Hồ Chí Minh | 0378397346 | dunglegit.1103@gmail.com

SUMMARY

Website Developer with over 3 years of experience developing and customizing WordPress websites, with a strong focus on building custom WordPress themes from scratch, ACF, WooCommerce, and responsive design. Proficient in PHP, HTML, CSS, and JavaScript, with hands-on experience in performance optimization, basic SEO, and resolving compatibility issues across themes, plugins, and hosting environments. Seeking to leverage my background in custom WordPress development to build scalable, high-performance websites while expanding my expertise in advanced PHP and modern web technologies.

WORK EXPERIENCE

GOPEAKS COMPANY LIMITED / Website Developer

July, 2026 – Present

- Developed and customized WordPress websites for the training and coaching industry.
- Built dynamic content sections using ACF, Custom Post Types, and Taxonomies.
- Developed responsive interfaces using HTML, CSS, and JavaScript, ensuring consistent display across multiple devices.
- Integrated, configured, and customized plugins for content management, forms, SEO, and multilingual functionality.
- Optimized page load performance and content structure, while troubleshooting compatibility issues between themes, plugins, and hosting environments.
- Developed internal tools to support employee workflows and business operations.
- Supported gym operations and collaborated with the Customer Service team to gather requirements and implement website feature enhancements.

DONA MEDIA COMPANY LIMITED / Website Developer

June, 2022 – August, 2025

- Developed and customized WordPress websites based on client designs and business requirements.
- Developed custom WordPress themes and responsive interfaces using HTML, CSS, and JavaScript.
- Utilized ACF, Custom Post Types, Taxonomies, and Custom Fields to build flexible and easy-to-manage content systems.
- Developed and customized WooCommerce websites, integrating plugins such as Contact Form 7, Rank Math, and Polylang.
- Optimized website performance, page load speed, and user experience while troubleshooting compatibility issues between themes, plugins, and hosting environments.
- Used Git/GitHub, XAMPP/Laragon, DirectAdmin, and cPanel for website development, testing, and deployment.
